

SATYA PREM

Jabalpur, Madhya Pradesh, India | +91-9931798085 | satyaprem619@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering student with hands-on experience in backend and full-stack development using Java, Node.js, Express.js, React.js, MongoDB, and REST APIs. Experienced in building AI-integrated applications with Gemini API, authentication, database management, and role-based access control. Strong foundation in Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, and Software Engineering.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (CGPA 8.1)

2023 – 2027 | Pursuing

- Shri Ram Institute of Technology, Jabalpur

TECHNICAL SKILLS

Programming Languages:	C++, C, Java, Python, JavaScript, TypeScript, SQL
Core Computer Science:	Data Structures & Algorithms, OOP, DBMS, OS, CN, Software Engineering
Backend Development:	Node.js, Express.js, FastAPI, Flask, REST APIs, JWT, RAG, Spring Boot (Learning)
Frontend Development:	React.js, HTML5, CSS3, Tailwind CSS, Next.js
Databases:	MongoDB, MongoDB Atlas, MySQL, Supabase
AI/ML & Generative AI:	Gemini API, RAG, Embeddings, AI Agents, Scikit-learn, NumPy, Pandas
Cloud & DevOps:	AWS EC2, S3, IAM, Docker, GitHub Actions, Vercel, Render

EXPERIENCE / INTERNSHIPS

AI/ML Virtual Intern Infosys Springboard	Aug 2026 – Present
Working on an AI-driven Product Intelligence platform focused on customer feedback analysis, product planning, feature prioritization, and requirements generation.	
Full Stack Developer Intern Bireena Infotech	Apr 2026 – Jul 2026
Developed a full-stack hospital management system covering patient records, appointment management, billing, authentication, and REST APIs for clinical and administrative workflows.	
Web Development Intern Yashi IT Services	Aug 2025 – Sep 2025
Developed responsive websites using HTML, CSS, JavaScript, and Tailwind CSS, while customizing Shopify and WordPress themes, plugins, and layouts.	
Cisco Virtual Internship – Cybersecurity, Networking & Artificial Intelligence	2024, 2025 & 2026
Completed Cisco virtual internships in Cybersecurity, Networking, and Artificial Intelligence, gaining practical exposure through virtual labs, technical training, and hands-on assessments.	

PROJECTS

CodeForCareer — Full-Stack Placement & Coding Platform	GitHub Live Demo
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Gemini API, Tailwind CSS, JWT, Google Oauth - Developed a full-stack placement and career acceleration platform with coding practice, structured learning paths, quizzes, project-based labs, mock interviews, and skill assessments to support end-to-end placement preparation. - Implemented AI-powered ATS resume analysis using Gemini API, multi-language code execution, and secure JWT authentication with protected routes, enabling personalized resume feedback and an integrated coding practice experience.	
Product Intelligence Platform — AI-Powered Product Analytics	GitHub Live Demo
- Tech Stack: React.js, Vite, Python, FastAPI, MongoDB, Gemini API, RAG, AI Agents, JWT - Building an AI-powered product intelligence platform with an end-to-end data pipeline for ingestion, validation, cleaning, preprocessing, AI analysis, embeddings, clustering, trend analysis, and feature prioritization. - Implemented RAG-based retrieval and Gemini-powered AI agents to transform analyzed customer feedback into product insights, prioritized features, PRDs, user stories, roadmap recommendations, and reports.	
LearnWise AI — GenAI-Powered Adaptive Learning & Career Mentor	GitHub Live Demo
- Tech Stack: React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Gemini API, Mongoose, JWT - Developed a GenAI-powered adaptive learning platform that generates personalized learning paths, diagnostic assessments, remedial plans, career simulations, and AI-powered resume analysis. - Implemented Gemini-powered AI services for backward-designed roadmaps, learning diagnostics, career simulations, resume parsing, and context-aware AI mentoring with secure JWT authentication and REST APIs.	
Bireena Medico — Hospital Management System	GitHub Live Demo
- Tech Stack: React.js, JavaScript, Node.js, Express.js, MongoDB, Supabase, JWT, REST APIs - Developing a multi-role hospital management system covering patient management, appointments, EMR, prescriptions, laboratory, pharmacy, billing, inventory, reports, and analytics. - Implementing secure REST APIs with JWT authentication and role-based access control, along with responsive dashboards and real-time workflows for administrators, doctors, clinics, pharmacy, laboratory, and appointment operations.	

ACHIEVEMENTS & CERTIFICATIONS

GATE 2026 — Qualified
AWS Cloud Foundations — Training Badge

TCS CodeVita Season 13 — Global Rank 2629
Cisco Virtual Internship — Cybersecurity, Networking & AI
